

1. Enumeration

Automated approach

```
autorecon TARGET_IP
```

Manual approach

```
nmap TARGET_IP -p- --min-rate 1400 -sV -T 4 -sC -oN output.txt
```

If the target is Windows use the below

```
nmap TARGET_IP -Pn -sV -T 4 -sC -oN output.txt
```

#or this if you want to dive deeper

```
nmap TARGET_IP -Pn -p- -sV -T 4 -sC -oN output.txt
```
